

---

EASTWARD PC Game Free Download is a action game that will take you to the middle of the cold North Sea. It's not easy to survive in this frozen, barren place. The Northern polar icecap is melting and sea level is rising fast. The goal of the game was not only survive but also find out what happened with EASTWARD PC Game Free Download You are one of the few inhabitants who stayed here for years by choice, even though there are no jobs, stores, or homes. Your home was taken from you under mysterious circumstances and now all you have left is an abandoned shack on your property that barely keeps anyone warm through the long winter nights.

EASTWARD PC Game Free Download To hold onto what little you have left, you make the best of the only things you have left: your wits, your luck, and your courage. You try to stay warm and dry, but shelter is hard to find in the middle of the tundra; there are no trees or rocks big enough to hide behind. Foxes and polar bears hunt day and night for food, carefully stalking their prey like silent ghosts.[/ARTICLE START]

EASTWARD PC Game Free Download is an open-world survival game that will take you to the middle of the cold North Sea. It's not easy to survive in this frozen, barren place. The Northern polar icecap is melting and sea level is rising fast. The goal of the game was not only survive but also find out what happened with EASTWARD PC Game Free Download You are one of the few inhabitants who stayed here for years by choice, even though there are no jobs, stores, or homes. Your home was taken from you under mysterious circumstances and now all you have left is an abandoned shack on your property that barely keeps anyone warm through the long winter nights.

EASTWARD PC Game Free Download With time running out before the next spring, you must figure out how to survive this harsh frozen wasteland with limited supplies. You must explore and find the tools and resources you need to prepare you for the next winter. The game is an action survival game about surviving in a frozen place. It's not easy to survive in this frozen, barren place. The Northern polar icecap is melting and sea level is rising fast. You are one of the few inhabitants who stayed here for years by choice, even though there are no jobs, stores, or homes. Your home was taken from you under mysterious circumstances and now all you have left is an abandoned shack on your property that barely keeps anyone warm through the long winter nights. Each day, you will have to hunt and gather resources, utensils and tools to survive. You will also need to face the elements: wind, rain and snow as well as predators such as polar bears or foxes. If you prefer to stay indoors, you can take care of livestock such as cows and pigs. Another option is fishing for cod and other fish. Once your food supplies run out, hunger will be a constant companion that could force you into making tough decisions.. You can also choose to hunt seals but remember that these creatures can put up a fight; it's not easy to survive with one days' worth of seal meat.
